✕ Franciacorta Wine Tour

Interests: wine, culture, nature

*Wine lovers will not want to miss the opportunity to discover Franciacorta, an unspoiled, inspiring area in the heart of Lombardy which has inherited the legacy of a winemaking tradition dating back to Ancient Rome. The presence in the region of Lake Como and Lake Garda makes it easy to overlook the tranquil, low-profile Lake Iseo, but Franciacorta is blessed by a unique combination of climate and soil, and vines heavy with chardonnay, pinot nero, and pinot bianco grapes yield Italy's most delicate sparkling wine, the namesake Franciacorta. Produced following the same fermentation process used for Champagne, Franciacorta is drier, yeastier, and more complex than better-known prosecco. Our English-speaking driving escort will accompany you in the discovery of this area and its best wines and vines. During the pleasant drive through vineyards and small villages, two breaks have been planned to visit two amongst the most appreciated wineries of the region, whose wines and enologists have been awarded national and international prizes. Here, you learn the taste, the character, and the history of wines which are a real treasure of Italian food excellence. Furthermore, since Franciacorta is home to a cuisine unique like its landscapes, a lunch stop on the shores of the Lake Iseo gives the final touch to a day dedicated to a perhaps not so fashionable but decidedly authentic and generous part of Italy.*
